

ABOUT

The ScanStone haulm topper is a versatile lightweight machine for topping 1 bed of potatoes. This machine can be used in conjunction with a rear mounted straddle machine for topping 3 beds of potatoes at a time.

Ridge press rollers

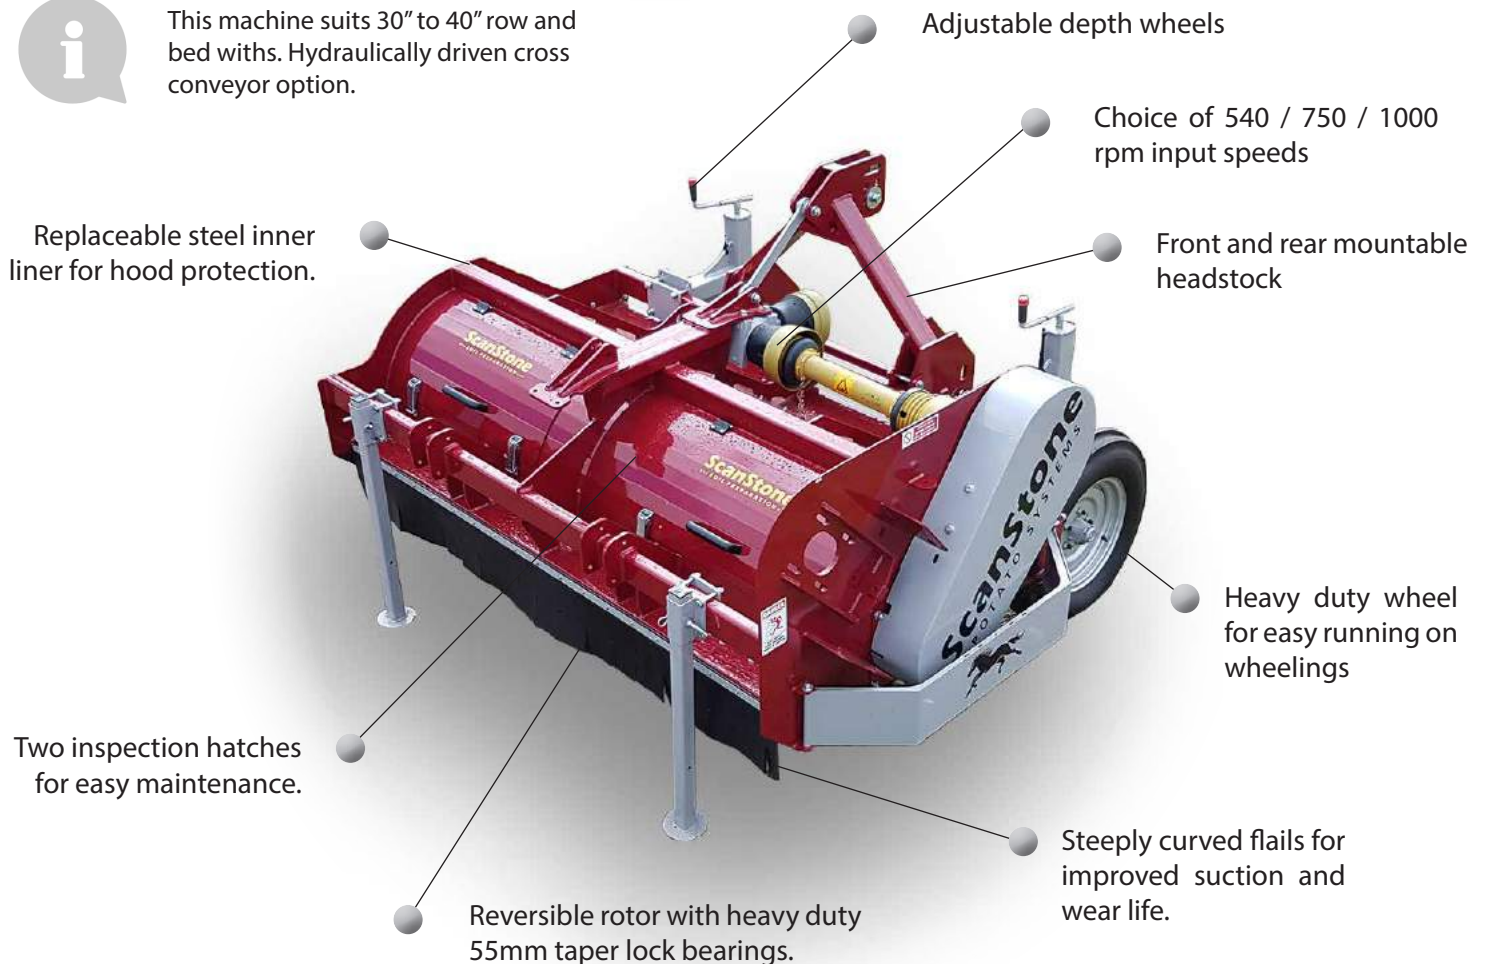

Hydraulic depth wheels

Floating hood

Crop protection plates

This machine suits 30" to 40" row and bed widths. Hydraulically driven cross conveyor option.

Adjustable depth wheels

Choice of 540 / 750 / 1000 rpm input speeds

Front and rear mountable headstock

Replaceable steel inner liner for hood protection.

Heavy duty wheel for easy running on wheelings

Two inspection hatches for easy maintenance.

Steeply curved flails for improved suction and wear life.

Reversible rotor with heavy duty 55mm taper lock bearings.

800 kg + 2 T

130-270 hp

2.9 m

1.8-6 m

OPTIONS

SIDE DISCHARGE
RIDGE PRESS
HYDRAULIC DEPTH WHEELS

We bought a third haulm topper this year because we've had such good results with the two before. The way you can mount the single topper onto either the front or back of the tractor gave us versatility during the season.
